WORK EXPERIENCE

Graphic Designer - Freelancer

dic 2023 - march 2024 - Germany

Collaboration for different companies, being responsible for creating attractive and effective visual designs for various mediums such as logos, brochures, posters, websites, and social media.

Front-End Developer - JFX

dic 2021 - febr 2023 - Chile

Developing multiple user interfaces for a different applications aimed at the account executives area, such as simulators, dashboards, and interfaces managing customer information, specifically for out client Banco de Chile, the largest private banking entity in Chile.

Graphic Designer - Kreativlab

oct. 2020 - nov. 2021 - Chile

Developing UI mockups and prototypes. Illustrate design ideas using storyboards, process flows and sitemaps. Identify and troubleshoot UX problems. Design and conduct usability tests to explore and validate design alternatives.

Graphic Designer - CREA7IVE

dec. 2019 - sep. 2020 Chile

The development of original graphics concepts detailed user research and analysis, and collaborated with colleagues from other departments on the improvement of user experience.
Produced low, mid, and high-fidelity wireframes and prototypes, iterating based on user feedback and data-driven decisions.

Web Designer - MAD AGENCY

febr. 2019 - dec. 2019 Chile

Conceptualized and created prototypes for an e-commerce startup, where I developed WordPress websites, marketing campaigns for email newsletters, and social media channels. This involved once again seeing projects through from start to finish: creating graphics, writing copy, publishing campaigns, web page creations, managing an online presence.
